

## Wooden that just burn you up?

A great rule to start Wildfire Awareness Week is to never stack firewood against the side of your home or a wooden fence. That pile of wood can become wildfire kindling. So please, move your woodpile at least 30 feet from your home.

And while you're at it take a few minutes to clean out any tree debris from your gutters, and cut back any overgrown vegetation close to your home. These are just a few things you can do to make your home and neighborhood safer. For a complete homeowner's checklist and more fire safety information visit our Web site at [www.FireSafeCouncil.org](http://www.FireSafeCouncil.org)

**Wildfire Awareness Week**, May 5-11: because what you do today can help keep your home and family safe in the next wildfire.
